

30/7/21 – sharing the DGAC post

[Statut is accessible](#)

[Panabiere Philippe • 1er IEEAC à la DGAC - Direction Générale de l'Aviation Civile 3 sem. • 3 weeks ago](#)

Yesterday in Sarlat-la-Canéda, the first SEPHER station (autonomous hydrogen production station based on photovoltaic energy intended to power air navigation radio systems) of the DSNA was declared operational!

Congratulations to all the actors, public and private for this great collaboration and this great achievement.

On the way to deployment...
